Q3 Comments on the atom family?

1	hate it with a passion	3/23/2013 7:46 AM
2	Simple is better. Also try to avoid red/white scheme, it will always be compared to voltorb. E's the best design, but pick a different colour scheme. Maybe blue/yellow?	3/23/2013 6:38 AM
3	change the colors so they arent so voltorb/electrode-y	3/23/2013 6:27 AM
4	I like it more when there is just one sphere as the head. I like how C's electrons look like hands, its theme color and the contrast between the main head's expression and the electrons'one. The "spike" on J's electrons are out of place. F just looks weird, K's face is way too big.	3/23/2013 4:30 AM
5	I think we need to keep it simple, as atoms are relatively simple in their complexity. The way the eyes mark the protons and neutrons on the body is genius. As long as we keep the colours away from the stark contrast of white/red of Voltorb and Electrode I think it'll be great. That being said, if you Google "atom", a fair amount of images have the protons and neutrons marked red and blue. I'd say we do that, leaving the all-but-weightless electrons white. Electrons have virtually no mass while white reflects no colours. Works for me.	3/23/2013 4:03 AM
6	We can't continue to survey the evolutions separately. It doesn't make sense and this isn't working how it should.	3/22/2013 8:49 AM
7	FINAL FORM Those "spartan" looks don't suit it at all. Also, regardless of the final form, the total charge should be 0 (or non-zero but then it should be called something related to ion). I think the best look would be G redesigned so the electrons look like H (minus the spartan helm look). First form B with the colours of A would look awesome and with two electrons less it would be a negative deuterium atom and could be made to look like hands like Final form H.	3/22/2013 2:33 AM
8	i think they would all look better if they didnt have mouths, like voltorb	3/21/2013 9:37 PM
9	Good idea that hasn't been done before.	3/21/2013 9:12 PM
10	I think it's a nifty idea. I think the deadmau5 lookin' one works rather well for the look.	3/21/2013 8:58 PM
11	I like the idea of a covalent bond for the evolution	3/21/2013 7:07 PM
12	Keep the old ones, I like them	3/21/2013 6:42 PM
13	I like the vaguely robotic vision of the atoms. Just need more traits to differentiate them.	3/21/2013 3:00 PM
14	None	3/21/2013 2:36 PM
15	I definitely prefer the A and B styles of the atom family (A and B of the first evo)	3/21/2013 2:15 PM
16	I like the dark red-ish brown and blue colour scheme. Sets it apart from Voltorb.	3/21/2013 1:09 PM
17	What is the purpose for them looking like beach balls? I don't really get an atom feel for this family, and it's because when I look at them all I can think of is beach balls or volleyballs.	3/21/2013 12:41 PM
18	Definitely one of the weakest concepts in the entire dex. We practically have to choose the least awful one.	3/21/2013 12:24 PM
19	Cute prevo, cool evo	3/21/2013 12:23 PM
20	Like the voltorb feel of 1E (evo), might need a slight recolor of the prevo for it to fit	3/21/2013 11:14 AM
21	I still want to vote for dismissing the atoms from our dex.	3/21/2013 8:21 AM
22	Can we go in the direction of the old calendars?	3/21/2013 8:01 AM
23	The concept of the preevo and evo is fine, but you need to redesign them so they're related to each other.	3/21/2013 7:31 AM
24	no limbs please.	3/21/2013 7:13 AM
25	A is a little plain	3/21/2013 6:47 AM
26	why are we rating evos independent of families?	3/21/2013 6:22 AM

27	These were fine already, guys. If it ain't broke, don't fix it.	3/21/2013 4:02 AM
28	Very unique and smart	3/21/2013 1:53 AM
29	Fuck they suck, do not want any of them.	3/21/2013 12:07 AM
30	Meh	3/20/2013 11:13 PM
31	I like the helmet look, but not much else.	3/20/2013 11:09 PM
32	don't give up on. wish they had final evo. based on carbon as carbon fusion on sun from 3 helium nuclei.	3/20/2013 10:56 PM
33	B and A are fantastic for the first stages. Either works very well. There were a couple of uninspired second stage designs I assigned N/A for, but E C and G are true stand outs as far as quality and creativity.	3/20/2013 10:08 PM
34	Not a terrible fan of any of these actually. However I could see why people like this.	3/20/2013 10:04 PM
35	The originals are best	3/20/2013 9:34 PM
36	First stage is fine as is, but second stage needs to be significantly different. Rather than focusing on 2 or 3 electrons, maybe put the focus on an electron cloud around it to imply a large number of electrons, as well as a more complex nucleus with the "body" being made up of protons and the facial features being made up of neutrons.	3/20/2013 9:29 PM
37	I know we already decided on electric/normal typing but after seeing design B I think it could go ghost/normal. But I still kinda like electric/normal so just putting that out there	3/20/2013 9:27 PM
38	Decent looking, maybe just a bit on the simplistic side.	3/20/2013 9:20 PM
39	It's shit.	3/20/2013 9:00 PM
40	Some of these aren't even scientifically accurate...	3/20/2013 8:58 PM
41	They're creepy and they're kooky, mysterious and spooky, they're all together ooky, the Atom Family	3/20/2013 8:57 PM
42	Reminds me a lot of Electrode	3/20/2013 8:26 PM
43	Needs more electron cloud	3/20/2013 8:21 PM
44	Quite lame, but at least they're nowhere forgettable. As stupid-looking Pokemon >>> generic/forgettable Pokemon, it should stay.	3/20/2013 8:17 PM
45	If you fuck it up I'll kick your dog	3/20/2013 7:56 PM
46	The problem with both of them is that they distinct pairs (evo A and prevo C for example), mismatching them might be bad. And you just made me think of Addam's Family and now I can't get the song out of my head :(3/20/2013 7:56 PM
47	Most of these are fairly uninteresting. I like the helmeted ones but their prevo is basically the same thing. Still prefer the more original approach of the calendaratoms.	3/20/2013 7:48 PM
48	n/a	3/20/2013 7:44 PM
49	B-2 looks good as a EVO of A-2, with the two protons part and one electron part as in G-I	3/20/2013 7:24 PM
50	they're all shitty cull them	3/20/2013 7:24 PM
51	evo needs to be composite and remeniscent of magnemite, electrode, and weezing	3/20/2013 7:24 PM
52	Some of the prevos and evos OBVIOUSLY go together, so it's hard to pick just one. C looks like it should be in the Evo section.	3/20/2013 7:14 PM
53	Poor concept in general, could use heavy revisions to make interesting pokemon, should be a non-evo pokemon	3/20/2013 7:09 PM
54	thee redesigns have added a lot of love to them especially the newest ones!	3/20/2013 7:04 PM
55	C/I/A B/A/D damn straight it is, watchin me even though i just said i was watching Cheese Pizza in the oven	3/20/2013 7:04 PM
56	FUCK YOU SKETCHER	3/20/2013 7:03 PM
57	CULL THEM	3/20/2013 7:00 PM

1	B's just fine now.	3/23/2013 6:38 AM
2	B looks more like a Pokémon compared to A. Maybe because the art style is simpler.	3/23/2013 4:30 AM
3	B seems more of Sugi's style to me. Fits in properly as an idea of a Pokemon more than A.	3/23/2013 4:03 AM
4	A > B because of the horns form and position. But A should take the tail of B, a small tail seems better-looking	3/22/2013 4:06 PM
5	A has better design, B has better artwork	3/22/2013 3:19 PM
6	The concept of A looks far more menacing and sinister, B looks like a pissed-off dog-sheep. The continous fur of A makes it look more homogenous and like it hasn't gone to the hairstylist (unlike B). The picture of A needs to be drawn better though, it's way too blurry.	3/22/2013 2:33 AM
7	needs another version both look shit	3/22/2013 12:54 AM
8	A looks more ferocious. While B looks like a second out of a three evolved form.	3/22/2013 12:39 AM
9	Longer tail is better	3/21/2013 9:12 PM
10	Well, it's not a cutebold.	3/21/2013 8:58 PM
11	None	3/21/2013 2:36 PM
12	This design and artwork does the idea so much justice	3/21/2013 1:55 PM
13	Yikes, both of these look bad. B looks too much like a dog and version A looks like he's sprouting a third leg from his rear end. Seriously, that tail looks weird. I guess I vote for version A, with the condition that the tail be re-designed to not look like an extra appendage.	3/21/2013 12:41 PM
14	B looks better with the prevo but I just like A more.	3/21/2013 11:30 AM
15	A is quite good, may need a slight change on the flaming ears, make the "transition" off the head more. B is pretty plain, doesnt really have an interestign silhouette, and the black back looks more like it's got a sweater than a design.	3/21/2013 11:14 AM
16	just get rid of the fire evo, it's awful	3/21/2013 11:04 AM
17	B looks very similar to Deino and needs to be fixed.	3/21/2013 7:31 AM
18	A's design is too unremarkable. Nothing special about it.	3/21/2013 7:13 AM
19	Could use some redesigning, not very original	3/21/2013 1:53 AM

1	i like A's design and colour scheme but i like the idea on B with it having no back legs and just a ghostly trail try combine the two!	3/23/2013 7:46 AM
2	A is /mlp/ worthy. B is an awesome idea.	3/23/2013 6:38 AM
3	C is cute, B is funny, A is just plain.	3/23/2013 4:30 AM
4	I think it would be great to see a two-legged ghost horse appear walking around.	3/23/2013 4:03 AM
5	I don't like any of them. I love the idea but no design looks good enough	3/22/2013 3:41 PM
6	Form A looks like a robotic pig. Forms B and C are equal except one doesn't have rear legs. I think without legs is better since it looks like traditional blanket ghost and seems like it really evolves into fantasmare.	3/22/2013 2:33 AM
7	i liked the original plain version why are you changing it, what the fuck man? it was perfect	3/22/2013 12:54 AM
8	The skeleton idea is good, just the 'body' is too opaque.	3/22/2013 12:39 AM
9	C is perfect but i still wanna see B's ghost leg concept in action some how. It just... works.	3/21/2013 9:36 PM
10	C looks like someone tried to combine A+B and failed. There's too much B and not enough A.	3/21/2013 8:58 PM
11	Hind legs, or no hind legs. I like both ideas, either way for me	3/21/2013 7:07 PM
12	The original skeletal version is the best.	3/21/2013 6:42 PM
13	If I could have B with back legs then it would be amazing and perfect.	3/21/2013 3:00 PM
14	A looks great, B and C would look better with the glowy skeleton effect from A.	3/21/2013 2:36 PM
15	I like B's saddle, and A's "bones", but C overall. Maybe if it still has a low approval rate after this, it's worth experimenting with mixing some elements?	3/21/2013 1:09 PM
16	I don't think the half phased out look is good at all. It looks like a half-finished drawing that the artist just got up from and left, not like half of the horse is invisible. If you wanted that look you should make the other half only slightly visible, not completely absent. The A version is the best, looks cute and spooky with the see-through skin.	3/21/2013 12:41 PM
17	I really dislike this idea.	3/21/2013 12:09 PM
18	Please give it hind legs	3/21/2013 11:48 AM
19	I just don't like the two legs thing.	3/21/2013 11:30 AM
20	The A is very good!	3/21/2013 11:14 AM
21	I think the Prevo should not anticipate the cool design with the bones. If it only appears on the Evo, it's something special	3/21/2013 7:13 AM
22	huh. dead ponyta?	3/21/2013 6:22 AM
23	Visually appealing	3/21/2013 1:53 AM
24	I like the "no hind legs" concept	3/20/2013 11:13 PM
25	simple is best, has to have a tiny sprite	3/20/2013 10:56 PM
26	LOVE the faint skeleton in A. Seriously looks fantastic!	3/20/2013 10:08 PM
27	I absolutely love this pokemon and all of these. However I think it would be just strange looking without four legs.	3/20/2013 10:04 PM
28	They are all amazing. I wish I could have them all for 1	3/20/2013 9:34 PM
29	I like the idea of no back legs.	3/20/2013 9:25 PM

#	Responses	Date
30	B would be perfect if it had hind legs. But the less pony like it ends up as the better.	3/20/2013 9:20 PM
31	Foltergeist	3/20/2013 8:26 PM
32	Needs more skeleton saddle	3/20/2013 8:21 PM
33	A is perfect.	3/20/2013 8:17 PM
34	B looks the most unique, and its pose could be reminiscent of a hippocampus (basically a mermaid but horse top instead of human). Visible bones in the front legs could be an improvement.	3/20/2013 7:56 PM
35	A is glorious	3/20/2013 7:48 PM
36	A + C are really equal in my book.	3/20/2013 7:44 PM
37	I've always hated the Fantasmare prevos - let it be a standalone pokemon and it'll pass next survey.	3/20/2013 7:42 PM
38	B with A's head would be 10/10	3/20/2013 7:34 PM
39	Why did you cut off it's legs, raptor.	3/20/2013 7:14 PM

1	A just because B is total crap. However, the green smoke currently looks like a bush.	3/23/2013 6:38 AM
2	B would be more adapted as a first evo than as the final one, in my opinion.	3/23/2013 4:30 AM
3	Both remind me way too much of Squidrift, especially if its typing remains poison/flying. I only went with A because it reminds me less of Squidrift.	3/23/2013 4:03 AM
4	B doesn't look like a Vial at all while A at least looks like a broken vial-thingy.	3/22/2013 2:33 AM
5	they both look like complete shit, this final evo needs to be given more time so we receive more alternative designs. ultimately i think we shouldn't have a final evo for this guy.	3/22/2013 12:54 AM
6	A mix of the facial features of B with the body of A would look pretty good.	3/21/2013 9:36 PM
7	I prefer the A line. It may need some work though (clouds more wispy instead of "fluffy", bright neon green cloud colour).	3/21/2013 1:09 PM
8	make the mouth sharper and the gas less fluffy	3/21/2013 12:57 PM
9	These look cool, I love the gas hands. Really looks like something that would come out of a lab, which I guess is the point of this line.	3/21/2013 12:41 PM
10	Both look great but I like the oozing, almost obese look to A - it's reminiscent of 1st Gen Poison Pokemons like Muk	3/21/2013 11:48 AM
11	A is so perfect	3/21/2013 11:30 AM
12	B is better than A, however I don't find it a good follow up to the prevos either. Maybe a bit more sharp fingers/arms woulda changed my mind, maybe not, but it's not really likable as of now. I have to admit I like A though, but it does not fit the prevos (which I DO NOT believe need changing!)	3/21/2013 11:14 AM
13	I don't care for him.	3/21/2013 8:21 AM
14	Maybe B as middle Evo and A as Final Evo ??? Would be rad!	3/21/2013 7:13 AM
15	Looks more toxic, fitting to the poison type style	3/21/2013 1:53 AM
16	You can't really tell what's going on with A, I can't imagine what a sprite would look like.	3/20/2013 11:09 PM
17	i like	3/20/2013 10:56 PM
18	A is a nice re-take on this pokemon. Excellent job!	3/20/2013 10:08 PM

19	[A] is awesome.... no let me re phrase that FUCKING AWESOME 999/10 would train the vial [B] with arms is just ridiculously bad	3/20/2013 9:34 PM
20	A needs a redraw.	3/20/2013 8:57 PM
21	A is so much better, nothing else to add	3/20/2013 8:17 PM
22	Is it based on any creature? If its not, B makes it look more like a realistic animal and A just looks 2Bamf4me	3/20/2013 7:58 PM
23	A just doesn't feel right to me but i wouldn't mind them. I think there's much more potential for the biotic poison look though, and A just cover up most of the parts that you could have added with smoke.	3/20/2013 7:48 PM
24	n/a	3/20/2013 7:44 PM
25	elements of each could be used, Im afraid the "body of smoke" thing on A may not work out	3/20/2013 7:34 PM
26	Don't like any,, I like A's concept, but needs work. B art is better.	3/20/2013 7:24 PM
27	I hate voting for Raptor art.	3/20/2013 7:14 PM

1	They're the same really, 2 just has more depth.	3/23/2013 6:38 AM
2	With this few differences, it's more a matter of taste.	3/23/2013 4:30 AM
3	The face in the smoke is fairly forboding. I do like that about it.	3/23/2013 4:03 AM
4	It is almost the same. I guess the shadow in the mouth is good.	3/22/2013 4:06 PM
5	Does it matter? They are 99.99% the same. It doesn't look like a vial, I think the way to go is to make it look like the first pre-evo but broken. And the second evo like the first but bigger, nastier eyes more smoke and cracks in it.	3/22/2013 2:33 AM
6	2 looks like there is something 'hidden' within the steam/fog	3/22/2013 12:39 AM
7	Number 2 looks like there's something dark and sinister at the core. I like that.	3/21/2013 8:58 PM
8	make the eyes more visible	3/21/2013 2:44 PM
9	I think it looks more creepy because of the two little eyes poking out. Whoever did this had a great idea.	3/21/2013 2:36 PM
10	What's the difference other than the shading?	3/21/2013 1:55 PM
11	Maybe "glowing" eyes within the eye sockets would work, but brighter then the surrounding smog, or a different colour.	3/21/2013 1:09 PM
12	Im colourblind and cant see any difference.	3/21/2013 12:57 PM
13	The spooky face in the gas gives this another level of coolness. It looks like the poison is the living thing and the outer shell is just the container, I like it.	3/21/2013 12:41 PM
14	Not sure that the shading adds anything	3/21/2013 11:48 AM
15	I love this one.	3/21/2013 11:30 AM
16	prefer 2, but the design in it's self forgets too much about what the prevo looked like. Posion Vial 2 has sharp legs, and a sort of chimney on it's head. Maybe a slight adjustment to the head and arms (well basically that's the whole 'mon but you get my idea), like sharpening the "fingers", and making the head more reminiscent of the prevo.	3/21/2013 11:14 AM
17	I don't care for him.	3/21/2013 8:21 AM

18	It needs the eyes in the mouth.	3/21/2013 8:01 AM
19	That darkened part makes it look more sinister. But it would probably be nice if we see the poison fumes coming out of the three purple orifices at the top of it.	3/21/2013 7:31 AM
20	the eyes in the green toxic smog must be more concise. They have to stare the shit out of you!	3/21/2013 7:13 AM
21	would it even be possible to sprite the shadowy face? caus it is really awesome	3/21/2013 6:22 AM
22	Neither, I chose B	3/21/2013 2:30 AM
23	Will be a great pokemon if given a strong movepool	3/21/2013 1:53 AM
24	eyes are sweet, bot sure how it would sprite	3/20/2013 10:56 PM
25	I like the dark center a little more. Both are fine.	3/20/2013 10:08 PM
26	The darker core looks better	3/20/2013 10:04 PM
27	2 has eyes and it looks spookier	3/20/2013 9:34 PM
28	they are the same design	3/20/2013 8:40 PM
29	The dark center really adds some depth to the cloud and makes it seem like there is vial back there.	3/20/2013 8:21 PM
30	The face inside the "mouth" should be more visible. It could have more glass fragments in the body; "hands" could resemble broken bottles/glass.	3/20/2013 8:17 PM
31	Anything different besides shading? skipping question	3/20/2013 7:58 PM
32	The only difference is the shading on the poison?	3/20/2013 7:56 PM
33	I can't tell if there's eyes in 2's mouth, I'm voting for 2 for the dark effect not for any eyes.	3/20/2013 7:48 PM
34	n/a	3/20/2013 7:44 PM
35	been following this line closely, the eyes/head thing on 2 doesn't really make sense	3/20/2013 7:34 PM
36	They're basically the same. I see little reason to list them separately.	3/20/2013 7:25 PM

1	B looks more like a prevo, it looks kinda small and frail for an evolution.	3/23/2013 6:38 AM
2	I only like A and F. The rest is "meh".	3/23/2013 4:30 AM
3	That Octazooka/Guillotine claw is a really nice idea.	3/22/2013 2:33 AM
4	I'd prefer C with the long eyebrows of D and G.	3/21/2013 8:58 PM
5	I like everything but F and the Buttcannon	3/21/2013 3:00 PM
6	None.	3/21/2013 2:36 PM
7	I like A overall, but I like F's gun claw and eyebrows. If another design wins, a colour scheme would need to be adjusted. (maybe also "spikes" on it's face like the prevo)	3/21/2013 1:09 PM
8	Finally some progress on this design! I love the C version, the claw-gun is finally prominent instead of being just a claw with a bullet hole. It's neck design looking like a revolver also is awesome. The colors aren't atrocious anymore either.	3/21/2013 12:41 PM
9	The C/D/F/G style is the first one that I like on this Pokemon. I moderately prefer the single barrel, but I'm not too adamant about it.	3/21/2013 11:48 AM
10	Anything but the asscannon.	3/21/2013 11:30 AM
11	Like A a lot, might need some desaturation but it's really great as a design! Also you could make the tail (or at least the tip) the same color as the 8D's tip (black-ish), to not be too much of a departure from the prevo. I understand if some might think it is too "complex" or just say it screams "digimon", and to that I might say all there could be done, would be to simplify the limbs a bit (only slightly, like less dark accents or something...not sure) F is good DCG are just the same basically, to on the nose (DC are holding goddam guns!) B looks like a monster from Lilo & Stitch... E...	3/21/2013 11:14 AM
12	Crawllock is horrible name and you know it.	3/21/2013 7:31 AM
13	The pistol has to be in the clutch! Pistol at the end of the tail is just boring. Colours of F are just perfect. A is too Digimon. Colours and design.	3/21/2013 7:13 AM
14	Looks awesome!	3/21/2013 1:53 AM
15	i like it not sure about hate. maybe a color shift is needed.	3/20/2013 10:56 PM
16	C,D,F, and G are all waaaaay too similar, and I prefer A anyways. More variety in the survey might have helped better rather than essentially the same design in four different poses...	3/20/2013 10:08 PM
17	Absolutely love D.	3/20/2013 10:04 PM
18	I hate him	3/20/2013 9:34 PM
19	These are MUCH better. I prefer the G/F claws over the D claw and the stripe patterns on G, D and C. Make sure the highest rated of the more metallic looking ones gets a one on one vote against the current one.	3/20/2013 9:29 PM
20	C has the best claws but D has the best antennas.	3/20/2013 9:00 PM
21	The flair from G for the bullet casing combined with the ironsights antennae of C. Color scheme of F	3/20/2013 8:21 PM
22	A is fine, but colors could be better: the metal part should be silver gray, the orange part should dark blue. Antennae could make a loop to add uniqueness	3/20/2013 8:17 PM
23	THEY'RE ALL SHIT YOU RUINED IT YOU CUNTASS	3/20/2013 7:56 PM
24	Tail could be more like a lit fuse, perhaps a small splash of yellow there. Definitely has to have one bug gun claw, the symmetrical one too awkward.	3/20/2013 7:56 PM
25	Make E his 3rd stage.	3/20/2013 7:48 PM
26	A's design is the best, but needs new colors.	3/20/2013 7:44 PM
27	F anf G pin is unoriginal, Kingler.	3/20/2013 7:24 PM

30	G with C's gun	3/20/2013 7:01 PM

1	Artifish is an awesome poke stop trying to ruin/cull it. C is just adorable and perfect in my opinion. A is a bit too realistic and B and G are plain bad. And B has been surveyed before and lost.	3/23/2013 6:47 AM
2	I put F on first, even if he doesn't look like a Pokemon to me. But E is too silly to work. B is funny. The rest is even more ridiculous than E. Can't we just let Doppole as a joke Pokemon without evolution to trick new players ?	3/23/2013 4:39 AM
3	I generally don't like the design overall. The concept of having a Pokeball design incorporated into a anglerfish-styled Pokemon is good, but the overall execution has been very poor. In my opinion I'd scrap it all together and have the Pokeball reference found in the atoms instead.	3/23/2013 4:09 AM
4	E is ugly. Honorable mention for G, which seems fun, but F is still the best.	3/22/2013 4:11 PM
5	It should be an in between of A and F	3/22/2013 2:45 AM
6	needs more alternative artworks to pick from	3/22/2013 12:58 AM
7	I assume this is intended to be a nightmare fuel version of a foongus-like bait-n-switch monster. I like the premise and I think F pulls that off well.	3/21/2013 9:09 PM
8	Make it blind	3/21/2013 6:45 PM
9	Angry version of 2	3/21/2013 6:24 PM
10	Make the pokeball a little bigger. Other than that, it's fine.	3/21/2013 3:47 PM
11	I like the lanturn fish th ebest.	3/21/2013 3:03 PM
12	None	3/21/2013 2:38 PM
13	I like F's colour scheme (shaggy "swamp monster" colours), but I wouldn't mind if it encorperated elements of the other designs (E's white underbelly and larger bottom canines.) I'd be also happy if D won out, but with F's skin.	3/21/2013 1:25 PM
14	Why are people making the poke ball not on the dangler from it's head? Stop trying to re-invent the wheel here, the dangler is what makes this a fake pokeball trap pokemon.	3/21/2013 12:50 PM
15	Remove poofy cheeks on D.	3/21/2013 11:50 AM
16	A might need a slight cuty-fying/poke-fying like change the eyes, smothern limbs. Also the goo patches should be simplified as to not be too disgusting. C is likable as well, might need better art, but design is good. B doesnt really fit the criteria (I put it higher than the others cuz the others were...well crap...)	3/21/2013 11:23 AM
17	I love the new design.	3/21/2013 8:04 AM
18	G and B look dumb	3/21/2013 7:18 AM
19	lovin E	3/21/2013 2:36 AM
20	Doesn't look like a fish to me	3/21/2013 2:00 AM
21	If option E wins you should have his eye looking mad but with 4 instead of a real eye	3/20/2013 11:16 PM
22	toothy ftw.	3/20/2013 11:03 PM
23	Make eye 1 have a thicker black circle.	3/20/2013 9:52 PM
24	B is better	3/20/2013 9:39 PM
25	None of these new designs really capture the feel of the original Artifish - intimidating, but oddly friendly at the same time. We need to keep that vibe.	3/20/2013 9:39 PM
26	Uguu anime eyes look reaaaally weird. Stick with simple	3/20/2013 9:29 PM
27	If you add E's jaw and eyes (1) to F it becomes perfect.	3/20/2013 8:33 PM
28	The fact that it got big and still wears the hat, but has the giant killer rock makes me laugh. If we keep artifish instead of making doppole a one stager, it needs to really be bad at is hiding job	3/20/2013 8:23 PM

29	Oh my goodness B is so adorable! But then would it lose the "fish" part of its name if the design no longer resembled a fish?	3/20/2013 8:05 PM
30	Why did you make the good design so small? I'll tell you why, ITS A GAMEFREAK CONSPIRACY TO STEEL ARE POKEMAN	3/20/2013 7:59 PM
31	It's time to let this thing die. It's the worst thing in the Dex.	3/20/2013 7:48 PM

3	SOOOOOO CUTE	3/21/2013 9:09 PM
4	I like the idea of the prevo being a bullet	3/21/2013 7:17 PM
5	Adorable	3/21/2013 3:03 PM
6	none	3/21/2013 2:38 PM
7	What's going to happen if the prevo design that wins doesn't match the winning evo? I'm also open to D's design, but with the "bullet" part of it's body pointing forward (but still with a rounded head)	3/21/2013 1:25 PM
8	The A, C, and D versions all look good. Really can't go wrong with either of them. The B version is too busy though, it looks like it could be an evolved form of this mon.	3/21/2013 12:50 PM
9	D looks too much like a hermit crab as compared to a shrimp in my opinion.	3/21/2013 11:54 AM
10	D is good! A and C are ok, but their respective evos aren't that good. B looks to much like a second tier evo.	3/21/2013 11:23 AM
11	If it's not B I'll be annoyed. Also, Craliber. Good name.	3/21/2013 8:56 AM

17	A is perfect.	3/20/2013 8:33 PM
18	B has a clever tail design, try putting it on the more bullet-y A and C?	3/20/2013 8:05 PM
19	I like A and C but D is still the best. I know there was a version posted where A had legs, maybe that would help.	3/20/2013 7:56 PM
20	B is really, really neat, but it does not match a single one of the evos.	3/20/2013 7:48 PM
21	Same thing with the Atoms, some designs just go together, and you can't pick one without it looking out of sync with their evos/prevos	3/20/2013 7:17 PM

1	the face on B and C is the best, but D has the better pincers by far. You could get rid of some of the lines and it's hoop earrings though.	3/23/2013 12:48 PM
2	simple is best. B/C/D have too many limbs, I looks like a bug' life character, H is overdesigned. F looks perfect as is, just give it some colours and he's good to go.	3/23/2013 6:47 AM
3	A, F and D are good, the rest is real crap	3/23/2013 5:07 AM
4	From A to G, they look good to me. The rest is a bit "too stylish".	3/23/2013 4:39 AM
5	Outside of F and E (and to an extent H), all of them give off a fighting vibe to me, not psychic. IMO there isn't a good way to position it unless it's hovering.	3/23/2013 4:09 AM
6	Good flat colours on H	3/22/2013 4:11 PM
7	I, A, and H are too humanoid	3/22/2013 3:47 PM
8	B and C are the same thing but B has more arms, which makes sense. Why is C an option? C should be vetoed or something, for being nonsensical. And apart from the antennae, B is hardly different from D... Does it matter? If B wins, won't the people for D just be happy? Considering how incredibly similar they are?	3/22/2013 8:53 AM
9	First form is almost perfect in my opinion but needs those claws and to starighten up. Colour scheme I'd go with green and purple. Those golden thingies look cool though.	3/22/2013 2:45 AM
10	leave him pink.purple looks good like that	3/21/2013 9:42 PM
11	A colors on F would be perfect	3/21/2013 9:40 PM
12	Light pink colors	3/21/2013 9:20 PM
13	I think the colours in general are a bit too saturated, especially the design "I" Maybe give "I" a less strong hue of purple, maybe closer to the pink of the other designs. Lower the saturation a bit, and mix in a bit of a grey hue. "I" definately needs lighter eyes. I think many of the designs would to better with a generally slimmer look	3/21/2013 7:17 PM
14	Eh?	3/21/2013 3:03 PM
15	Try using the dark pink on the purple instead?	3/21/2013 2:38 PM
16	H's colour scheme looks best.	3/21/2013 1:35 PM
17	The new designs are pretty cool, but may need to be developed if they win. D/B alterations are subtle enough to be gender differences.	3/21/2013 1:25 PM
18	Change the colors! This guy should be simplified, all the designs where he's standing like a humanoid are bad. He's not a mantis-man, he's a pyschic bug. I like the version where it's floating and meditating in F. Looks very zen and ready to bend spoons or something.	3/21/2013 12:50 PM
19	D is 10/10 design, 10/10 colors, 10/10 in general. Would train.	3/21/2013 12:43 PM
20	Green/Purple	3/21/2013 12:26 PM
21	I like the floating-with-orb-above head and would like to see both of those designs fleshed out.	3/21/2013 11:54 AM
22	I like B's design a lot, the colors are fine (or rather I'm neutral). The pose however say's a lot about it's typing. Coloring it pink and purple won't be convincing enough of a psychic type. Therefore B should take on a pose quite similar to D or A.	3/21/2013 11:23 AM
23	colours of B look cool	3/21/2013 7:18 AM
24	I rather like the colors on I, but prefer the body design of D (Don't suppose anybody'd be willing to throw one on the other and see if it works?)	3/21/2013 6:56 AM
25	Best looking bug type i have seen	3/21/2013 2:00 AM
26	B/C looks like a fighter, the pose isn't that great.	3/20/2013 11:16 PM

27	6 legs zen beast.	3/20/2013 11:03 PM
28	If you expand the idea of [F] color and what not it would look fucking amazing. [F] has a lot of potential	3/20/2013 9:39 PM
29	D's anatomy and facial expression with B/C's minimal jewelry in F's position	3/20/2013 9:39 PM
30	Only F and E are good, all others are awful. Jewelry on pokemon is full retard mode. It does not look good. I seriously hate this design, but I'm somewhat alright with F and E. Just not those god awful colors.	3/20/2013 9:36 PM
31	gonna flip a shit if F doesnt win	3/20/2013 9:32 PM
32	I like it with 6 arms, and I like it when it's primary arms are shaped like wizards sleeves. I like it when it looks obvious that it is using psychic powers and not just holding a glowing ball.	3/20/2013 9:14 PM
33	almost all of them have completely lost the mantis aspect of the design	3/20/2013 8:43 PM
34	A is perfect, very Pokemonish and unique. I would only pick a lighter tone of pink for the body and make the "sleeves" transparent with eyes/spiral patterns (google "flower mantis", the wings pattern should be added to the "sleeves")	3/20/2013 8:33 PM
35	Lose the jewelry on D, make it more like the gold neck on A-C. Glow on the antenna is a little weird, either get rid of that or put it on the orb too.	3/20/2013 8:05 PM
36	I like A's sleeves and body design but it should be shown in a more upright pose.	3/20/2013 7:56 PM
37	What the fuck is even I	3/20/2013 7:48 PM
38	Still needs much more contrast.	3/20/2013 7:25 PM
39	I is a redraw from A Bug's Life.	3/20/2013 7:17 PM

1	C is getting too close to the current thoraxe. Remnove B's nose spike, it already has a tail stinger, two are too much.	3/23/2013 6:47 AM
2	dont make its main stat special defense,we already have alot of those	3/23/2013 6:30 AM
3	A is the best as an evolution to Vectol. B seems to have a long nose.	3/23/2013 4:39 AM
4	Skamer ??? Seriously, this Fakemon is ugly as hell.	3/22/2013 4:11 PM
5	Looks good mang	3/21/2013 3:03 PM
6	None	3/21/2013 2:38 PM
7	Very close call. I like: A: gold eyes, different coloured claw tips, polygons on stinger, colour of tail chain, pink legs, needle nose. B: "hollow" stinger, phasing legs. C: segmented Body shape + colours and stripe, black ring on stinger, yellow "circuit dot" and line on head.	3/21/2013 1:25 PM
8	I like all of these. Keep it looking like a computer program with those geometric shapes.	3/21/2013 12:50 PM
9	Lose the pupils or make them better than just dots.	3/21/2013 12:27 PM
10	I like the slight head tilt on C	3/21/2013 11:54 AM
11	Remove pupils from A and it's perfect.	3/21/2013 11:50 AM
12	C's design is good, (the art makes it hard to notice forms though), I like the sharp oval shapes, very good fit for the computer virus theme.	3/21/2013 11:23 AM
13	C with B's tail colors	3/21/2013 9:15 AM

18	porygon=/=vectol porygon good vectol bad	3/20/2013 9:39 PM
19	C with A's stinger. Also the DNA needs to look alpha-helical, not like random nonsensical circles.	3/20/2013 9:39 PM
20	I would like C more if it didn't have that random floor underneath it.	3/20/2013 9:14 PM
21	The sting could get more "design", like glowing between yellow, red and purple (or simple being recolored laser red); same for the little stings inside the claws, they should have a more vibrant color	3/20/2013 8:33 PM
22	None of them look "cyber" enough, but C is on the best track.	3/20/2013 8:05 PM
23	A and C are kind of tied to me, leaning toward C.	3/20/2013 7:56 PM

7	This is actually pissing me off. There have been a lot of really good ideas but out for this pokemon but the people drawing it keep coming out with the same ideas. 22	I love the idea of B's head acting as a dual pot lid and shield. I'd be open to it having a visable mouth, as well as the "head/lid" sweeping back to give the effect of a cobra hood, while still keeping the pot lid/shield. However, it's body still doesn't look "pot like" (maybe the sprite pose can be coiled up).	3/21/2013 1:25 PM

32	Very hard choice here, I'd like the basket lid design to be more apparent, yet still not just a basket for a head. I'd say an in between of A and B (leaning more towards B) would be good.	3/21/2013 11:23 AM

2	The mask is funny.	3/23/2013 4:55 AM
3	I like the b-bug, but I think it needs to match the evos.	3/21/2013 6:48 PM
4	None	3/21/2013 2:40 PM
5	B looks slightly goofy but I feel it's okay for a first evo	3/21/2013 12:01 PM
6	The simple skull for a head doesn't really cut it. A is good, might make the "mask" a tad bit simpler though (we are gonna sprite this after all)	3/21/2013 11:36 AM
7	adjust the head a little bit. It's too indifferent -> shape and head painting	3/21/2013 7:24 AM
8	Can't really see detail on A, but my choice is still B from what I can see	3/21/2013 7:02 AM
9	Tribal looking and cool	3/21/2013 2:06 AM
10	B looks a bit goofy though.	3/20/2013 11:22 PM
11	A is much better. The "mask should be made more visible (larger "eyes" and "teeth"), though.	3/20/2013 8:47 PM
12	Both of these suck.	3/20/2013 8:28 PM
13	If there was a way to make B's skull head a teeny bit less subtle, that's all I see and it seems like the type of design that should make you think "OH now I see it!"	3/20/2013 8:23 PM

15	B doesn't really capture a "skull" feeling to me.	3/20/2013 9:10 PM
16	Wings should be much larger; again, the features of the "mask" in the head should be visible (larger "eyes" and "teeth")	3/20/2013 8:47 PM
17	This is much better than the prevos.	3/20/2013 8:28 PM
18	A's body, B's wings? The bleeding/crying eyes are too edgy for me.	3/20/2013 8:23 PM
19	A fits in more with the prevos I chose. B is ultimately about the same with a colour change, I'd like to see more done with the skull moth but there's not much to offer here. That said I would like B more if it matched the brown colour scheme of the previous As.	3/20/2013 8:05 PM

1	make your mind up im sick of reviewing this line as it was good from the start but the new designs just get shittier and shittier	3/23/2013 7:50 AM
2	I don't like the new design as much as the old one. No golden breast please, it's too much gold.	3/23/2013 6:53 AM
3	WHERE IS GOLD GOD MONKEY	3/23/2013 6:32 AM

11	I like A overll, however if B/C/D incorporated the right colours and the style of teeth A has, I'd be happy with any of them,	3/21/2013 1:36 PM
12	Golden nipples! WTF, just leave this poor guy as is. Leave Monkezuma alone!	3/21/2013 1:08 PM
13	I prefer the B-A-A line	3/21/2013 12:01 PM
14	D has a good face, might get rid of the spikes on the bracers though, maybe put another design on 'em.	3/21/2013 11:36 AM

25	God save the king	3/20/2013 8:28 PM

1	A as it is. The helmet is unnecessary.	3/23/2013 6:53 AM
2	The mask on B's face looks good. C is otherwise better.	3/23/2013 4:55 AM
3	They all look Bretty Good :DDDDD	3/21/2013 9:24 PM
4	Add a small crack to the skull helmet of B	3/21/2013 3:51 PM
5	Looking good. Why does the original design have a helmet now?	3/21/2013 3:06 PM
6	none	3/21/2013 2:40 PM
7	B could incorpeate elements of C. For example, C's tusks being a part of B's "helm". B looks more like a "gentle giant" until provoked. C looks more predatory.	3/21/2013 1:36 PM
8	I like how this is coming along. The added rocks on the shoulders/head of C bring more of a connection between its looks and its typing.	3/21/2013 1:08 PM
9	Pokémon: 'pocket means giant' edition	3/21/2013 1:03 PM
10	B with the eyes of C	3/21/2013 12:43 PM
11	I think the pose of C sells it more than anything else. I also like the leg length and cheek-horns	3/21/2013 12:01 PM
12	A is perfect! However B is quite viable as well, but I'm not too sure how you would change the "helmet"...there's just something off about it... C isn't really...Sugi-ish	3/21/2013 11:36 AM
13	I don't like the blue on C, but its design is the best.	3/21/2013 11:36 AM
14	C does'nt look like a pokemon. It's too filigree	3/21/2013 7:24 AM
15	Make it strong	3/21/2013 2:06 AM
16	give tusks and body size/shape to B	3/20/2013 11:10 PM
17	C looks perfect. The head seems a little busy though, I'd suggest taking out the smaller horn on the top of his head leaving only the one horn and the two tusks. You could maybe even take both upper horns off. I love the tusks.	3/20/2013 9:43 PM
18	B is perfect. A could be the female	3/20/2013 8:47 PM
19	i wish there was a N/A option so i could not vote for C at all	3/20/2013 8:45 PM
20	It's an Indricothere, come on Sketch, how many times I gotta tell you this? I like the volcanic rock from C, but also the battle armor of B	3/20/2013 8:25 PM
21	B is too much armor, C's proportions are a bit too realistic.	3/20/2013 8:23 PM
22	Note that this question does not have a n/a option. C is best, B is too digiman. It's nice to see them take away the turtleneck but I just plain like C better.	3/20/2013 8:05 PM
23	why is there no N/A for this question	3/20/2013 8:05 PM

1	E with A's head and C's belly colour please. Or instead give it two horns to fit both prevos.	3/23/2013 6:53 AM
2	it doesnt resemble a fighting type anymore, i would just make it pure water	3/23/2013 6:32 AM
3	B is superior, but actually I think that the face of other proposition is better. But overall, the B is better.	3/23/2013 5:10 AM
4	Stop sticking your tongue.	3/23/2013 4:55 AM
5	A: too underdesigned. B: whatever. C: looks good, but I like E's tail spike. D: don't like its weird fork hands or anything much at all. E: salt chest mustache looks weird.	3/22/2013 8:57 AM
6	Design B needs the pose the others have. Its head plate is the best but it should end on the neck not on the chest.	3/22/2013 2:55 AM
7	A's design would be perfect if it had E's markings	3/21/2013 9:46 PM
8	I like design B, but I'd like to see it with a headspike like C+E have.	3/21/2013 9:43 PM
9	Not B	3/21/2013 9:24 PM
10	Love the long spines of D. Not a fan of the headplate of C and E. The way the salt covers up a lot of B's upper body is interesting, could perhaps be incorporated in D.	3/21/2013 7:24 PM
11	Change the stance, not the look.	3/21/2013 6:48 PM
12	Loving the new design.	3/21/2013 3:06 PM
13	none	3/21/2013 2:40 PM
14	If we have horns on the helm, it would need two "sweapt back" horns, like on it's mid-stage evo. I like the idea of a salt chest piece, and spikes running down the tail with some form of "flourish" at the end (the min-evo had a few spikes, so building on them would be cool) Across the board I like the salt "breaking down" effect seen on all designs except B, coloured iguana cheeks like on all bar B, and "knee armor" seen on D (again, the prevo has some, would be nice if evo did.) Keep the tounge from the new designs as well.	3/21/2013 1:36 PM
15	Just leave it as the first one. What is the point of the massive tongue? Are we trying to reminisce about the days of the awful Golbat sprite in Gen I? Keep the noble reptile design of version A please.	3/21/2013 1:08 PM
16	Give B a slightly bigger head	3/21/2013 12:43 PM
17	The pose on B is far superior	3/21/2013 12:01 PM
18	C is my favorite! You might wanna slipe the front horn into two though (to be like the 1st evo)	3/21/2013 11:36 AM
19	I think it needs to be redesigned, but not like these.	3/21/2013 9:00 AM
20	D's coloring but keep the salt pure white! E's tail ending is great.	3/21/2013 8:30 AM
21	the gry/light blue/blue color is the best	3/21/2013 8:07 AM
22	I love B's arms and hands	3/21/2013 7:24 AM
23	Really don't like the colors on A, kinda indifferent on D's, okay with the rest	3/21/2013 7:02 AM
24	Favourite starter final evolution	3/21/2013 2:06 AM
25	I like the head plate on C, but I think the spines should be angled back a bit. The markings should also be redone.	3/20/2013 11:22 PM
26	A with D frill for color pattern and hands. dislike clubs and headspikes. B has an epic jaw line though.	3/20/2013 11:10 PM
27	B is the only one that really looks like a pokemon.	3/20/2013 9:43 PM
28	Just stick with the original design. It really does look best. I wouldn't mind seeing a color change though. It looks very 'ice' type, which doesn't necessarily bother me but maybe it'll appease others	3/20/2013 9:43 PM

29	WHY SO MANY SURVEYS ON HIM? the original was always the best and everyone agrees! Somehow there has been a mis communication somewhere	3/20/2013 9:42 PM
30	I like A and B color schemes best.	3/20/2013 9:33 PM
31	B is the best by far, only thing that could be added is a similar spine as the rest.	3/20/2013 9:32 PM
32	D would be best if it had more spikes on its forehead, covering some of it's spines.	3/20/2013 9:17 PM
33	Fuck you, I want to vote for the version with the really tall crest ridge like a mohawk.	3/20/2013 9:12 PM
34	don't do the salt bra thing that's so weird	3/20/2013 9:05 PM
35	A is perfect but give it D's headspikes	3/20/2013 9:03 PM
36	B IS SO PERFECT. I would only add more blue and less white (unless it's Water/Ice), otherwise it is 10/10, better than the others by a long shot	3/20/2013 8:47 PM
37	Make D with the colours, tail design and arm design of B and it is perfect.	3/20/2013 8:28 PM
38	Avoid feraligatr colors at all costs.	3/20/2013 8:25 PM
39	A and C are deliciously wild.	3/20/2013 8:23 PM
40	B is just so fluffy and happy, I like the others too though but I've always liked B. I would suggest work on the prevos to match up with B.	3/20/2013 8:05 PM
41	none	3/20/2013 7:54 PM
42	All the ones set apart from the original are fucking dreadful.	3/20/2013 7:32 PM
43	none of them	3/20/2013 7:25 PM
44	moose's version should have been included, this is bullshit. It was the only one that made it look like a fighting type in the slightest	3/20/2013 7:16 PM

21	Would remove the purple liquid or recolor it black. The oranges parts could be jet black or silver	3/20/2013 8:56 PM
22	A would have been a good Pokemon in his own right. I really like it, but obviously it doesn't match my other choices (all B). I prefer the original non-raptor Erion. The skinny one.	3/20/2013 8:13 PM

1	A is better than B but it needs a major overhaul. Think Tron for colours/design. The future is sleek, not spiky.	3/23/2013 6:57 AM
2	See 33.But is it possible to make him a bit less pointy ?	3/23/2013 5:01 AM
3	But all three with the same height. So this Erace has to be minimize, or the two others has to be augmented.	3/22/2013 4:18 PM
4	These can't be voted in separately.	3/22/2013 8:59 AM
5	Design B is waaaaaaaay better but those tubes look weak and it needs more electronic circuit marks like those in the chest.	3/22/2013 3:11 AM
6	fuck this pseudo regi-shit	3/22/2013 1:04 AM
7	Both look good	3/21/2013 9:27 PM
8	Give erace broader shoulders, to give it a more masculine look like the others. Maybe a bit longer head, similar to xenomorph Maybe throw in some sparks, like erion's poison	3/21/2013 7:30 PM
9	A looks too much like dieties, they're supposed to be more human.	3/21/2013 4:46 PM
10	Erace B could have those cords run down his legs from his waist	3/21/2013 3:58 PM

13	I prefer the current golems, and we already have 2 trios. I'd be happy with the new trio in gen 2 though.	3/21/2013 1:43 PM
14	Version A is stupid and childish.	3/21/2013 1:12 PM
15	Whoever designed the A's should be taken out back and shot in the head, to prevent him/her/it from ever breeding. They're that bad.	3/21/2013 12:56 PM
16	Like this one A lot! A trumps B for it's Native American Feel.	3/21/2013 12:15 PM
17	For all I prefer the As - less humanoid.	3/21/2013 12:04 PM

1	Everything but C is wrong. C looks just right.	3/23/2013 6:57 AM
2	C is the best by far. D might be okay with coloring and a propoer artwork. A and B are not to my tastes at all.	3/23/2013 5:01 AM
3	CCCCCCCC	3/22/2013 4:18 PM
4	C and D are incredibly similar.	3/22/2013 8:59 AM
5	The whole xbox sign on kneecaps thing needs to go. The new designs seem to have the cheekpatches in common, like pikachu and his clones. Maybe try that on C.	3/21/2013 7:30 PM
6	A and B needs to look less like Minun.	3/21/2013 3:58 PM
7	Maybe need bigger radio dish ears? But other than that it is perfect. Why is it changing?	3/21/2013 3:08 PM
8	None	3/21/2013 2:42 PM
9	I like the idea of it being "our pikachu". Defenitely add cheeks to it.	3/21/2013 1:43 PM
10	cowatti is fine	3/21/2013 1:04 PM
11	Like C a lot, maybe change the back sprites to be less like pikachus, and more like lightning bolts perhaps, but other than that splendid!	3/21/2013 12:15 PM
12	The tail on A and B looks odd and I don't like their facial expressions.	3/21/2013 12:04 PM
13	Jesus christ A and B look like pikachu.	3/21/2013 11:57 AM
14	What's up with the pikachu A and B?	3/21/2013 11:38 AM
15	Nice colours! Keep them that light.	3/21/2013 7:27 AM
16	C rules, the rest suck	3/21/2013 2:09 AM
17	long tail is key	3/20/2013 11:13 PM
18	A every day. Why change the design? Maybe a coloration change to seem more 'shocking'. But I like it the way it is. maybe make the tail seem more zig zaggy or something.	3/20/2013 9:47 PM
19	The sprite I've seen posted in the threads actually looks better than any of the art I've seen for this guy	3/20/2013 9:46 PM
20	C is perfect, should be final design. As an extra, the blue rings on the tail could float around it.	3/20/2013 8:56 PM
21	Longer coati snout?	3/20/2013 8:23 PM
22	The same goddam thing over and over, the power symbols and the pikachu cheeks have been surveyed man. C is what came out, and it's good.	3/20/2013 8:13 PM
23	Why does this cute mother fucker always gotta not make it in? Design C is best, but needs blue cheeks like A and B.	3/20/2013 7:58 PM
24	The new designs make me want to gauge my eyes out.	3/20/2013 7:36 PM
25	The other 3 look like shitty pika by rip offs	3/20/2013 7:21 PM

1	Nice mouse reference, but without distracting from the design. And I like the sturdier look.	3/23/2013 6:57 AM
2	They both look good, but I like B more.	3/23/2013 5:01 AM
3	The tail needs to be longer, it doesn't look like a scorpion with such a short tail.	3/22/2013 3:11 AM
4	None	3/21/2013 2:42 PM
5	I like the body of B looking kike a computer mouse.	3/21/2013 1:43 PM
6	This one is good! Fits the Evo I prefered as well (maybe a recolor, but design is good)	3/21/2013 12:15 PM
7	Shouldn't be green. Try purple or blue.	3/21/2013 11:57 AM
8	no pokeballs on that Pokemon please	3/21/2013 7:27 AM
9	The mouse looks stunning	3/21/2013 2:09 AM
10	I would like A more if it were colored like B.. or it would have been cute if it looked like a zipdrive.	3/20/2013 9:22 PM
11	Paint the body purple, the tail red and yellow	3/20/2013 8:56 PM
12	i might have gone with A but the tails are bad	3/20/2013 8:48 PM
13	A is too squat, B is better but not subtle at all it just looks like a mouse.	3/20/2013 8:13 PM

8	I can't really see a difference on these, maybe it's just me	3/21/2013 7:05 AM
9	Sharper looking	3/21/2013 2:09 AM
10	Can't really tell the difference between the two	3/21/2013 12:09 AM
11	I don't like the computer mouse thing thats going on. I feel it should have eyes or at least something like eyes. It just seems foreign and unrelated to the rest of the dex	3/20/2013 9:47 PM
12	THEY ARE BOTH THE SAME	3/20/2013 9:45 PM
13	I would like A more if it were colored like B	3/20/2013 9:22 PM
14	Is only the face different?	3/20/2013 8:23 PM
15	oh man it took me so long to see the difference, I prefer 2 it makes it more buglike.	3/20/2013 8:13 PM

1	I can't tell what the thing at the end of B's tail is supposed to be.	3/23/2013 5:01 AM
2	I think the wings should be bigger and not so spaced apart.	3/22/2013 3:11 AM
3	The circle tail makes no sense, it's the last thing we should be focusing on.	3/21/2013 6:50 PM
4	None	3/21/2013 2:42 PM
5	Difference is minor enough to be gender difference. I'd like an inner white part on B's tail though.	3/21/2013 1:43 PM
6	Pokémon: A Dozen Different Snakes Edition	3/21/2013 12:56 PM
7	Both look super good, I would be fine with either tail but I think B looks slightly better.	3/21/2013 12:04 PM
8	A larger halo-ring at the end, please.	3/21/2013 8:06 AM
9	I am unhappy with both. This looks like kindergarten. That is no Pokemon. Head and neck look like Digimon. :/	3/21/2013 7:27 AM
10	Circle tail looks better	3/21/2013 2:09 AM
11	I don't know if the tail should be purple.	3/20/2013 11:24 PM
12	I think the purple tail fin should follow suit and be two pronged like the other colored pieces.	3/20/2013 9:54 PM
13	The circle part is cool, fits in well with the cones and rods thing whereas without it people might not understand what the rainbow serpent is exactly.	3/20/2013 9:47 PM
14	either, make them gender specific	3/20/2013 9:37 PM
15	the fact that this design is so awful and yet this revision is so subtle comes off as either a complete lack of competence or an insult	3/20/2013 8:48 PM
16	A doesn't have any other shapes that go with that design, so B's tail end looks nicer.	3/20/2013 8:23 PM
17	Still unimpressed by the rainbow serpent and would like a large overhaul in design. I get that it's a rod, but it looks MUCH more like a Queztl with the mayan and rainbow shit. Rods are basically just segmented lines of light.	3/20/2013 8:13 PM
18	<3	3/20/2013 7:58 PM
